INDUSTRIAL HOT OIL PUMP

About Us

Touching heights of success can be hard. But, with the right decision everything is possible. Industrygenix Engineering is one such companies that works following a systematic work approach. Thus, getting the job done without any hassle and before deadline. As a manufacturer and trader, we bring forth a gamut of quality-marked equipment. Air Compressor, Industrial Chemical Process Pump, Hot Oil Pump, Compressed Air Piping System and Industrial Aluminum Piping System are to name a few. Each one of which is carefully designed, manufactured and quality-tested over several quality parameters to meet the expectations of our clients while complying with the industrial quality norms. The parameters we focus on involves dimensional accuracy, durability, utility, reliability, etc.

Industrygenix Engineering is a team of engineers working in unison with other staff members to climb ladders of success in this competitive business line of coming up with the best-in-class range of equipment. For instance, Industrial Aluminum Piping System, Air Compressor, Hot Oil Pump, Industrial Chemical Process Pump and Compressed Air Piping System. Although we are based in Pune, Maharashtra, India, we are making our presence across the nation backed by our logistics network sprawling across the nook and cranny of the nation. Besides, we offer after sales services for our Air Compressor and allied equipment.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	compressed air piping system,solvent transfer pump,thermic fluid pumps,centrifugal pumps,chemical process pump,
No of Staff	10
Year of Establishment	2021
OEM Service Provided	No
Monthly Production Capacity	250 Qty
ProductRange	compressed air piping system,solvent transfer pump,thermic fluid pumps,centrifugal pumps,chemical process pump,

Our Products

Industrial Hot Oil Pump

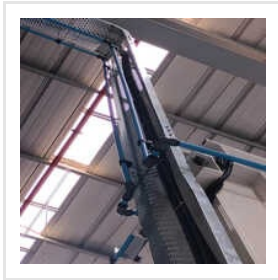

Industrial Chemical Process Pump

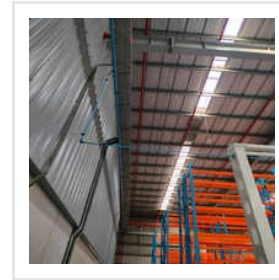

Industrial Air Compressor

Industrial Pipe Installation Services

Industrial Aluminium Piping System

Compressed Air Piping System
